PPC Fiber expands to 15 new areas across Attica and Thessaloniki

- *PPC Fiber expands its commercial availability to **15 additional areas across Attica and Thessaloniki***
- ***Over 1.3 million households** are now ready for service through PPC FiberGrid's FTTH network, which has reached **a footprint of 2.05 million homes passed***
- ***Internet speeds of up to 2.5 Gbps**, with plans starting from **€17.90/month** and the option to add fixed-line telephony for just **€4/month***

PPC Fiber is expanding at a rapid pace, bringing 100% Fiber-to-the-Home (FTTH) connectivity to 15 additional areas across Attica and Thessaloniki and extending ultra-fast broadband access to even more households.

With this latest expansion, PPC Fiber is now available in Agioi Anargyroi, Alimos, Acharnes, Elliniko, Kalyvia Thorikou, Kamatero, Keratea, Koropi, Lavreotiki, Marathon, Palaio Faliro, as well as Agios Pavlos, Efkarpia, Stavroupoli and Oreokastro in Thessaloniki, offering guaranteed speeds of up to 2.5 Gbps and the option to add fixed-line telephony.

At the same time, PPC FiberGrid continues to steadily expand its FTTH infrastructure. More than 1.3 million households are now ready for service, while the network footprint has reached 2.05 million homes passed, further increasing the availability of ultra-high-speed broadband services across Greece.

PPC Fiber is currently available in the following areas:

- **Attica:** Kifisia, Agia Paraskevi, Marousi, Vari, Voula, Vouliagmeni, Glyfada, Ilioupoli, Nea Ionia, Nea Smyrni, Pallini, Papagou, Cholargos, Peristeri, Filothei, Psychiko, Chalandri, Nikaia, Keratsini, Korydallos, Gerakas, Aigaleo, Pikermi, Agia Varvara, Nea Erythraia, Glyka Nera, Spata, Agios Ioannis Rentis, Drapetsona, Ilion, Ekali, Anthousa, Dionysos, Penteli, Argyroupoli, Petroupoli, Nea Makri, Markopoulo, Salamina, Paiania, Kallithea, **Agioi Anargyroi, Alimos, Acharnes, Elliniko, Kalyvia Thorikou, Kamatero, Keratea, Koropi, Lavreotiki, Marathon and Palaio Faliro (new areas)**
- **Thessaloniki:** Evosmos, Eleftherio-Kordelio, Pefka, **Agios Pavlos, Efkarpia, Stavroupoli and Oreokastro (new areas)**
- **Northern Greece:** Veria, Kozani
- **Peloponnese:** Corinth, Megalopolis
- **Central Greece & Thessaly:** Trikala

PPC Fiber is now available to over 1.3 million households nationwide, with its commercial footprint continuously expanding to new cities and neighborhoods. Customers can check service availability, express their interest and learn more through the PPC website, by calling 13870, or by visiting selected PPC stores.

Fiber-to-the-home from €17.90 per month, free installation and the option to add fixed-line telephony

PPC Fiber is available through three internet-only plans designed to meet the everyday needs of households. All plans are based on a 100% fiber-to-the-home (FTTH) network, offering guaranteed ultra-fast speeds and transparent, competitive pricing with no hidden fees.

Plan	Download Speed	Upload Speed	Monthly Price
PPC Fiber 500 Mbps	500 Mbps	250 Mbps	€17.90
PPC Fiber 1 Gbps	1 Gbps	500 Mbps	€19.90
PPC Fiber 2.5 Gbps	2.5 Gbps	1.25 Gbps	€52.90

Customers can also choose to add fixed-line telephony services, allowing them to tailor their communications package to their individual needs.

Add On Service	Description	Monthly Price
Basic Telephony Add On	Unlimited calls to national fixed and mobile numbers	€4
International Calls Add On	1,000 minutes to fixed-line numbers in 35 selected destinations	€10

With three straightforward internet plans and optional voice services, PPC Fiber delivers a complete connectivity experience combining ultra-fast speeds, flexibility and outstanding value.

PPC FiberGrid: Greece's Second-Largest Fiber Network

PPC FiberGrid's 100% Fiber-to-the-Home (FTTH) network has now reached 2.05 million homes passed, with more than 1.3 million households already ready for service.

As a wholly owned subsidiary of PPC Group, PPC FiberGrid has built Greece's second-largest fiber network, achieving one of the fastest FTTH rollouts in the country while steadily expanding access to ultra-high-speed broadband services nationwide.

With a presence in more than 100 areas—either already available or under construction—the network continues to expand, with a target of reaching 3.8 million homes passed by 2028, further increasing FTTH availability across cities, municipalities and neighbourhoods throughout Greece.

The PPC FiberGrid network is based on end-to-end fiber architecture, supporting speeds of up to 10 Gbps while delivering high reliability and future scalability to meet the country's growing connectivity needs.

At the wholesale level, PPC FiberGrid offers bitstream services of up to 2.5 Gbps, as well as dark fiber services, enabling telecommunications providers to develop and deliver tailored connectivity solutions to their customers.
