Customers can find detailed information, check service availability and register their interest on the PPC website, by calling **13870**, or at selected PPC stores.

Fiber-to-the-home from €17.90/month, free installation and optional fixed-line voice

PPC Fiber offers three straightforward internet-only plans designed to meet the everyday needs of every household. All plans are based on **100% fiber-to-the-home (FTTH)** and offer guaranteed ultra-high speeds at affordable prices for everyone, with no fine print or hidden charges.

Plan	Download speed	Upload speed	Monthly price
PPC Fiber 500 Mbps	500 Mbps	250 Mbps	€17.90
PPC Fiber 1 Gbps	1 Gbps	500 Mbps	€19.90
PPC Fiber 2.5 Gbps	2.5 Gbps	1.25 Gbps	€52.90

Customers can also add optional fixed-line voice services, choosing the package that best suits their communication needs.

Plan	Description	Monthly price
Basic Voice Add-on	Unlimited calls to national fixed and mobile numbers	€4
International Calls Add-on	1,000 minutes to fixed-line numbers in 35 selected destinations	€10

With three clear internet options and the flexibility to add voice services, PPC Fiber provides a complete connectivity experience combining **high speeds, flexibility and competitive pricing**.

PPC FiberGrid: Greece's second-largest fiber network

Behind PPC Fiber is PPC FiberGrid, PPC Group's wholly owned subsidiary, which is rolling out its fiber network across Greece. PPC FiberGrid's FTTH network continues to expand at a pace that stands out in the Greek telecommunications market. More than **1.5 million households and businesses across 70 areas** are now ready for service, while the network's total footprint has reached **2.3 million homes passed**. In just **three and a half years**, PPC FiberGrid has built the **second-largest FTTH network in Greece**.

With **2 million households and businesses ready for service by the end of 2026** as its next milestone, the network continues its expansion towards the target of **3.8 million by 2028**.

With a **presence in 120 areas**, either already available or under construction, the network continues to extend FTTH availability to new cities, municipalities and neighborhoods across Greece.

PPC FiberGrid's network is built on a **100% end-to-end fiber architecture**, supporting speeds of up to **10 Gbps** while delivering high reliability and future scalability to meet continuously growing connectivity needs.

At the wholesale level, PPC FiberGrid offers **bitstream services** at speeds of up to **2.5 Gbps**, as well as **dark fiber services**, enabling telecom operators to develop and offer tailored solutions to their end customers.
