

Press Release

8 June 2026

PPC Fiber: FTTH internet with 100% fiber optics expands to new areas in Attica and the Peloponnese

- *New areas in Attica and the Peloponnese gain access to PPC Fiber: Argyroupoli, Petroupoli, Nea Makri, Markopoulo, Paiania, Kallithea, Salamina and Megalopoli*
- *Available from €19.90/month for 1 Gbps, with the option to add fixed telephony for just €4/month*
- *More than 1.1 million households are already ready for service, with the network footprint reaching 1.88 million homes passed*

New areas in Attica and the Peloponnese now have access to PPC Fiber, PPC's 100% fiber-to-the-home (FTTH) internet service. PPC Fiber is now also available in Argyroupoli, Petroupoli, Nea Makri, Markopoulo, Salamina, Paiania, Kallithea and Megalopoli, offering guaranteed speeds of up to 2.5 Gbps and the option to add fixed telephony services. At the same time, PPC FiberGrid's FTTH network continues to expand steadily, reaching 1.88 million homes passed, of which more than 1.1 million are already available for immediate connection (ready for service).

In detail, PPC Fiber is available in the following areas:

- **Attica:** Kifissia, Agia Paraskevi, Maroussi, Vari, Voula, Vouliagmeni, Glyfada, Ilioupoli, Nea Ionia, Nea Smyrni, Pallini, Papagou, Cholongos, Peristeri, Filothei, Psychiko, Chalandri, Nikaia, Keratsini, Korydallos, Gerakas, Aigaleo, Pikermi, Agia Varvara, Nea Erythraia, Glyka Nera, Spata, Agios Ioannis Rentis, Drapetsona, Ilion, Ekali, Anthousa, Dionysos, Penteli, Argyroupoli (new), Petroupoli (new), Nea Makri (new), Markopoulo (new), Salamina (new), Paiania (new), Kallithea (new)
- **Thessaloniki:** Evosmos, Eleftherio-Kordelio, Pefka
- **Northern Greece:** Veria, Kozani
- **Peloponnese:** Corinth, Megalopoli (new)
- **Central Greece & Thessaly:** Trikala

PPC Fiber is now immediately available in nearly 50 areas and to more than 1.1 million households nationwide, while continuing to expand into new cities and neighbourhoods. Interested customers can find detailed information, check availability and register their interest through dei.gr/fiber, by calling 13870, or through selected PPC stores.

Fiber-to-the-home from €17.90 per month, with free installation and now with the option of fixed telephony

PPC Fiber is available through three internet-only plans designed to meet the everyday needs of households. All plans are based on 100% fiber-to-the-home (FTTH) technology and offer guaranteed ultra-high speeds at affordable prices, with no hidden fees or conditions.

Plan	Download Speed	Upload Speed	Monthly Price
PPC Fiber 500 Mbps	500 Mbps	250 Mbps	€17,90
PPC Fiber 1 Gbps	1 Gbps	500 Mbps	€19,90
PPC Fiber 2,5 Gbps	2.5 Gbps	1.25 Gbps	€52,90

Subscribers can also add optional fixed telephony services, allowing them to tailor their communications package to their needs.

Add On Service	Description	Monthly Price
Basic Telephony Add On	Unlimited calls to national fixed and mobile numbers	€4
International Calls Add On	1,000 minutes to fixed-line numbers in 35 selected destinations	€10

With three straightforward Fiber plans and the option to add voice services, PPC Fiber delivers a comprehensive connectivity experience that combines high speeds, flexibility and competitive pricing.

PPC FiberGrid: The second-largest fiber optic network in Greece

PPC FiberGrid's 100% fiber-to-the-home (FTTH) network has now reached 1.88 million households (homes passed), of which more than 1.1 million are already available for immediate connection (ready for service). In less than three years, PPC Group's subsidiary has developed the second-largest fiber optic network in Greece, steadily expanding access to ultra-fast broadband connectivity across the country.

With a presence in 95 areas (available and under construction), network expansion continues with the goal of reaching 3.8 million households by 2028, further extending FTTH availability to new cities, municipalities and neighborhoods.

The PPC FiberGrid network is built on a fully end-to-end fiber architecture, supporting speeds of up to 10 Gbps while delivering high reliability and future scalability to meet growing connectivity needs.

At the wholesale level, PPC FiberGrid offers bitstream services with speeds of up to 2.5 Gbps, as well as dark fiber services, enabling telecommunications providers to develop and deliver customized solutions to their end customers.
