

## Press Release

February 2, 2026

### PPC Fiber: 100% FTTH internet by PPC expands to new areas across Greece

- *To Athens, Thessaloniki, Trikala, Veria, Kozani and Corinth*
- *From €17.90/month for 500 Mbps and €19.90/month for 1 Gbps*
- *Already present in 41 areas, with continuous expansion nationwide*
- *PPC FiberGrid: 1.7 million homes passed, over 1 million commercially available (ready for service)*
  - *The second-largest fiber-optic network in Greece*
  - *Target: 3.8 million homes passed by 2028*

New areas in Athens and Thessaloniki, as well as Trikala, Veria, Kozani and Corinth, have now access to guaranteed internet speeds of 500 Mbps, 1 Gbps and 2.5 Gbps with PPC Fiber, the 100% fiber-to-the-home (FTTH) fixed internet service by PPC, available to households and businesses. With guaranteed ultra-high speeds, and prices starting from €17.90/month for everyone, PPC Fiber leverages the most modern and fastest-growing FTTH network in Greece - the fiber-optic network of PPC FiberGrid, transforming the internet connectivity experience.

PPC Fiber, the FTTH internet service by PPC, is available in 24 new areas:

- **Attica:** Nikaia, Keratsini, Korydallos, Gerakas, Aigaleo, Pikermi, Agia Varvara, Nea Erythraia, Glyka Nera, Spata, Agios Ioannis Rentis, Drapetsona, Ilion, Ekali, Anthousa, Dionysos, Penteli
- **Thessaloniki:** Evosmos, Eleftherio-Kordelio, Pefka
- **Corinth, Trikala, Veria, Kozani**

Already present in: Kifissia, Agia Paraskevi, Maroussi, Vari, Voula, Vouliagmeni, Glyfada, Ilioupoli, Nea Ionia, Nea Smyrni, Pallini, Papagou, Cholargos, Peristeri, Filothei, Psychiko, Chalandri

*"The expansion of PPC Fiber into new areas across Greece reaffirms our commitment to providing reliable and affordable ultra-high-speed internet to more households and businesses. Step by step, we continue to extend FTTH availability, leveraging one of the most advanced fiber-optic networks in the country, so that citizens can enjoy the connectivity experience they deserve," said Giorgos Karakousis, Deputy CEO for Commercial Activities of PPC Group.*

PPC Fiber is currently available in 41 areas nationwide, covering more than 1 million households and businesses, with continuous expansion into new cities and

neighborhoods. Interested parties can find detailed information, check availability for their home or business, and register their interest at [www.dei.gr/fiber](http://www.dei.gr/fiber), by calling 800-500-3870 free of charge, or by visiting selected PPC stores.

#### **Fiber to the Home from € 17.90/month with Free Installation**

PPC Fiber is offered through three innovative internet-only plans, designed to meet the everyday needs of households and professionals alike. All plans are based on 100% fiber to the home (FTTH), providing guaranteed ultra-high speeds and affordable pricing, with no fine print or hidden charges.

Plan	Download Speed	Upload Speed	Monthly Price
ΔΕΗ Fiber 500Mbps	500 Mbps	250 Mbps	€ 17.90
ΔΕΗ Fiber 1Gbps	1 Gbps	500 Mbps	€ 19.90
ΔΕΗ Fiber 2.5Gbps	2.5 Gbps	1.25 Gbps	€ 52.90

With three clear options, PPC Fiber delivers the best value-for-money proposition in the market.

#### **What Makes PPC Fiber Stand Out**

PPC Fiber offers a connectivity experience that meets the demands of the modern digital era, combining reliability, speed and advanced technology. With guaranteed download-upload speeds and a 2:1 download-to-upload ratio, free installation by a certified technician, a free state-of-the-art router Wi-Fi 6, updates on all installation timelines and support through a dedicated customer service line, PPC Fiber delivers the ultimate fiber-to-the-home experience for all digital needs.

#### **PPC FiberGrid: The Second-Largest Fiber-Optic Network in Greece**

In just two and a half years, the 100% fiber-optic (FTTH) network of PPC FiberGrid has passed 1.7 million households and businesses, with over 1 million already ready for immediate connection (ready-for-service). This positions PPC's subsidiary as the operator with the second-largest fiber-optic network in Greece.

Already present in 82 areas (live and under-construction locations), network expansion continues at an accelerated pace. According to its strategic development plan, PPC FiberGrid aims to reach 3.8 million households and businesses by 2028, continuously adding new cities and municipalities and enhancing nationwide access to ultra-high-speed internet.

The FTTH network of PPC FiberGrid is designed and deployed with end-to-end 100% fiber architecture, ensuring ultra-high speeds of up to 10 Gbps and offering unlimited future expandability.

With a dedicated fiber cable per subscriber up to the aggregation point, the FiberGrid network delivers peak speeds, absolute reliability and limitless possibilities bringing the future of connectivity today.

The PPC FiberGrid network is offered at the wholesale level through two models. The first is the provision of wholesale bitstream services with speeds of 300 Mbps, 500 Mbps, 1 Gbps and 2.5 Gbps, featuring a downstream-to-upstream ratio of 2:1. The second model involves the provision of dark fiber wholesale services, enabling telecommunications providers to develop and deliver tailored retail solutions to their end customers.
